62017	Warmer	<p>The warmer in classic Japanese design is made of cast iron. It is black. The top panel can be removed. There is a foot for the warmer. This can be taken out. A small jug can be placed on this foot. Thus, the pot is closer to the flame and the tea can be practically boiled. This "boiling process" cannot be carried out with all jugs, e.g. jugs made of glass and clay should not be used for this.</p> <p>All cans can be used on the upper plate.</p> <p>The warmer has a diameter (top) of 25 cm and a height of approx. 8 cm.</p>		25.00 €
